Python Learning & Practice Resources

1. Learning Python from Tamim Shahriar Subin Sir's Notes

📌 Resource Link: [Click Here](#)

- Beginner-friendly guide to Python
- Covers fundamental concepts with easy explanations
- Useful for Bangladeshi students as it provides localized explanations

2. Learning & Practicing Data Science with Kaggle

📌 Resource Link: [Learn and play with kaggle](#)

- Hands-on tutorials for Python, machine learning, and data science
- Interactive coding exercises and real-world datasets
- Includes courses on pandas, deep learning, and data visualization

3. Practicing Python Programming

📌 Resource Link: [CodingBat](#)

- Free platform for Python coding exercises
- Covers basic to advanced-level coding challenges
- Helps improve logic-building skills
